Alfi - Welding and Fume Extraction Systems

Benefits:

- *Significant energy savings!*
- *Cheaper installation costs!*
- *Safer work environment with less fumes!*
- *Increased worker productivity!*

Why choose an Alfi Fume Extraction?

The Alfi Extraction Arms are versatile, space saving and offer a much safer environment required and expected by your staff. The aim is to extract fume at source which is a much more efficient system than large fixed hoods and extraction systems.

Versatile for every application!

Dynamic Engineering's Alfi Fume Extraction systems are versatile:

- Wide Variety of length and configurations to meet any workplace needs.
- Filtered, portable and wall mounted units that fit anywhere.
- Suitable for use in hazardous, food processing and other specialized environments.

WE ARE HERE TO HELP!

As an Australian owned company service is our key.
