

Flexible Extraction Arm

Alfi IS Arm - constructed with flexible internal support system

Available in three models - all with 360° rotation

- ▶ with steel bracket for wall mounting (as standard)
- ▶ ceiling mount - from a hanging position
- ▶ ready for table mounting

Alf IS spring balanced extraction arms offer the easiest positioning available. The unique design not only moves the arm easily, but also holds in place once positioned.

Flexible and high temperature resistant hose combined with a metal hood makes the lightweight arm the best choice for professional and heavy duty applications for fume and dust.

Accessories Fans, automatic start/stop, spotlight, extension hoses with magnet, hood, bracket 1m and 2m for mounting on roof or floor
