Super-M Extractor Arm

Made of Acidproof and Mirror-polished Stainless Steel

The Super-M Arm can be sterilized in an Autoclave.

All Surfaces are mirror polished (not electrolytic polishing) for easy disinfection with chemicals.

PERFECTLY BALANCED External hydraulically suspended parallelogram arms make the hood incredibly easy to move and 100% stable in all positions.

Smoke, Dust and Gases. An extractor arm extracts smoke, dust and gases directly at source, before the contamination has spread in the premises and been inhaled. You will get better working environment, less wear and tear of the machines and lower cleaning costs.

Toughest Working Environments. Super-M is made for the toughest working environments in the Pharmaceutical, Food process and Technical chemical industry. Every detail is made of acid proof, mirror polished stainless steel. Wall bracket, parallelogram arms, handle, hood, damper, bolts, nuts, washers – all of it!

All Tube Ends are sealed for maximum hygiene.

The Arm is earthed the whole way from the hood to the wall. With an antistatic-earthed hose (not standard) the arm is approved for explosive environments.

Product List	Art.Nr
Super-M D.160mm/1.5m(0.25m+1.5m) Acidproof, mirror polished	P-178
Super-M D.160mm/1.5m(0.5m+1.5m) Acidproof, mirror polished	P-179
Super-M D.160mm/2m(0.25m+2m) Acidproof, mirror polished	P-180
Super-M D.160mm/2m(0.5m+2m) Acidproof, mirror polished	P-181
Super-M D.160mm/3m(0.5m+3m) Acidproof, mirror polished	P-182
Super-M D.160mm/4m(0.5m+0.6m+3m) Acidproof, mirror polished	P-183
Damper, tight, for d.160mm hood. Acidproof	P-484
